“Picture Perfect Dentistry – Photography Workshop” was organised on 21<sup>st</sup> September 2023 by the Department of Conservative Dentistry and Endodontics.

The program was held at Narayana Dental College in the smart class room. The workshop was conducted to acquaint the postgraduates of all specialities and faculty members with the Clinical photography. The guest speaker for the program was Dr Karthisk S from SRM dental College.

The event began with a short introduction of the guest speaker, followed by an invocation song and a welcoming speech by Dr. Lavanya, the Head of the Department. The speaker then provided an overview of how photography is used for documentation and specifications in dental practices.

After lunch, a hands-on workshop was conducted, allowing all staff and post-graduate attendees to practice using an intra-oral camera and adjust it to the desired specifications. The event ended with the guest speaker receiving a memento in recognition of their contribution.

The program was executed flawlessly, following the pre-planned schedule, and received an overwhelmingly positive response from participants, both staff and PGs across other specialties, including house surgeons and students. We have received positive feedback from all attendees.
